## LOGIN PAGE – BACKGROUND IMAGE

### IMAGE REQUIREMENTS:

Width	Height	DPI
1600px	900px	72px

### NOTE:

The website is responsive, therefore try to ensure that the logo and any important information is on the left-hand side of the image. This will avoid the logo being hidden as on different screen sizes (smaller) the right-hand side of the image will not be visible as it will be covered by the login panel.
